# PRATIKSHA FANDADE

Kolhapur, Maharashtra | fandadepratiksha@gmail.com
GitHub: Pratiksha-777 | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Motivated Bachelor of Technology student at KIT College of Engineering, Kolhapur, with an interest in software development, frontend web technologies, artificial intelligence, and IoT-based solutions. Enjoys building practical projects, learning new tools, and turning ideas into usable applications. Seeking opportunities to strengthen technical skills through collaborative projects and internships.

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming Languages** | C, C++, Python, JavaScript |
| **Web Development** | React, HTML5, CSS3, Vite |
| **Development Tools** | Git, GitHub, SQL, REST APIs |
| **AI & Hardware** | Gemini API, ESP32, HX711 load cell amplifier, TOF sensor |
| **Core Strengths** | Problem-solving, project development, teamwork, willingness to learn |

## PROJECTS

### MediQueue — Hospital Queue Management Platform

*Technologies: React, JavaScript, HTML, CSS*

• Developed a web project concept focused on organizing hospital appointments and patient queues.

• Includes interface concepts for queue status, emergency handling, doctor information, and hospital resources.

### Smart Shopping Cart — IoT-Based Shopping Concept

*Technologies: React, ESP32, HX711, TOF sensor*

• Explores a smart cart workflow using product scanning and sensor-based weight verification.

• Aims to support item tracking and automated billing through an integrated hardware and software concept.

### Personal Portfolio Website

*Technologies: React, Vite, JavaScript, GitHub Pages*

• Created and deployed a responsive portfolio website to present projects, technical skills, certificates, and contact information.

• Live website: pratiksha-777.github.io/Pratiksha-portfolio

## EDUCATION

**Bachelor of Technology (B.Tech)** — **Expected Graduation: 2029**

KIT College of Engineering, Kolhapur — **CGPA: 9.5/10**

## CERTIFICATIONS & ACHIEVEMENTS

• **Generative AI Mastermind** — Outskill, Certificate of Completion

• **VELORA-1.0 Hackathon** — MIT Academy of Engineering, CIPHER × IEEE (2026)

• **GirlScript Summer of Code** — 2026

• **Think Fest — Arduino Workshop** — AI & Robotics Club, KITCoEK (2025)

• **STRANGER CODE** — PIONEER 2026, KITCoEK

• **Idea Forged** — ASSETS, KITCoEK (2026)

## ADDITIONAL INFORMATION

**Areas of Interest:** Frontend development, AI-enabled applications, IoT systems, and software engineering.

**Profiles:** GitHub and portfolio links above showcase project work and ongoing learning.
